

PETER FAGAN (#2490)

NOMINATION FOR PRESIDENT - PERSONAL PROFILE

As your President of the past three years and Director for over twenty years, I have a strong attachment to everything the Club means to myself and members. Having served as Captain, Vice Captain, Vice President and Director has given me a deeper understanding of the needs of our members and the challenges our club faces. Our current board work cohesively and harmoniously together for the best interests of our wonderful club.

My direct involvement with the Club has included:

- Being part of the selection subcommittee to employ the Moses Golf.
- Assisted in the Project Management of the new \$2.7million Irrigation System.
- Junior Golf Coordinator and Team Manager of various Pennant Teams.
- Instrumental in managing the design and construction of the new nine holes.

**As Your President:**

I believe we are on the correct path to take our Club into the future. In other words, continue with the programs in place including our Course Improvement 5-year Plan and the Strategic Plan.

Fostering positive relationships and maintaining open lines of communication with every entity that make up the Club are fundamental aspects of effective governance and management.

Supporting programs like 'Ladies Bay Buddies' and nurturing our strong Junior group are important for the overall success and community engagement of the Club.

Our financial situation is sound but we should continue to seek other avenues to gain revenue while keeping annual subscriptions at a competitive level.

**If my time availability, experience and enthusiasm count I have more to contribute.**
